

I oppose any attempts by banks or others to be able to call my home  
or cell phone attempting to sell me goods and services of which I have not  
requested. This is not an established business  
relationship and I resent the efforts of the institutions who are trying to say  
it is. I own the phone, and pay for the services of  
the phone company to provide that service to me, not for others to  
impose their goods whom I have not requested. Please do not allow  
this to go through 02-278 by the banks.  
Thank you Cheryl Anderson
